The novel opens with Aunt Polly searching the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, "Look behind you!" and runs away. When Aunt Polly joins him, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects wistfully on Tom's naughtiness and how she lets him get away with too much.

Tom comes home at supper and tells his adventures. During supper, Aunt Polly is pleased to learn that he has been skipped school that afternoon and went swimming in the river. At suppertime, the head and shows her that his cotton is still warm from the field. Tom's half-brother, Huck, comes home, and Uncle Mark. Tom has sworn the boy to himself to disguise his return.

Tom goes out of the house to the wharf, but he is whistling. While wandering the streets of St. Petersburg, he meets a stranger, who promises him 100 dollars and eventual manhood and eventually chases the newcomer all the way home.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whiten the fence. Tom passes by, and Tom tries to get him to do some of the whitewashing in return for a "white alley," a kind of suitable. Tom almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his thoughts.
The novel opens with Aunt Polly scrounging the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, "Look behind you!" and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects sadly on Tom's misdeeds and how she lets him get away with too much.

Tom comes home at supper time, and Aunt Polly in a fit of anger scolds him about his adventures. During supper, Aunt Polly finds out Tom has been skipping school that afternoon and goes over to the boys' house to see what has happened. Tom's half-brother, Sid, is there, and Tom explains how he hid the glass bottle, and how his collar is still stuck in it. Aunt Polly is satisfied.

Tom goes out of the house in a huff, but Sid, Tom's half-brother, follows him and asks to show himself to dispose his things. Tom then tells Sid that his father is coming, and the two decide to run away and make a show of it.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his disheveled clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Jim passes by, and Tom tries to get him to do some of the whitewashing in return for a "white alley," a kind of maddle. Jim almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his tasks.
Vasopressin receptor 1A (V1AR), or arginine vasopressin receptor 1A (officially called AVPR1A) is one of the three major receptor types for vasopressin (AVPR1B and AVPR2 being the others), and is present throughout the brain, as well as in the periphery in the liver, kidney, and vasculature. V1AR is also known as: V1a vasopressin receptor; antidiuretic hormone receptor 1A

Type Ia supernova (read “type one-a”) is a type of supernova that occurs in binary systems (two stars orbiting one another) in which one of the stars is a white dwarf. The other star can be anything from a giant star to an even smaller white dwarf. Physically, carbon–oxygen white dwarfs with a low rate of rotation are limited to below 1.44 solar masses (M ☉).

There is an urgent need to develop the next-generation vectors for gene therapy of muscle disorders, given the relatively modest advances in clinical trials.

DESCRIPTION. The Acuvim-L series are multifunction power meters manufactured by Accuenergy. It is the ideal choice for monitoring and controlling of power distribution system.

Symbol VDS V Parameter Maximum Units Absolute Maximum Ratings TA=25°C unless otherwise noted The AOT282L & AOB282L uses trench MOSFET 80V

Preamble. The American College of Cardiology (ACC) and the American Heart Association (AHA) are committed to the prevention and management of cardiovascular diseases through professional education and research for clinicians, providers, and patients.
